## **STUDENT-ATHLETE HANDBOOK**

**2023-2024**

**GO INDIANS!**

## PURPOSE

**The purpose of this handbook is to serve as a reference for all students and parents involved in the Muncy Athletic Program. All guidelines are for the safety and total well being of the student-athletes.**

## STATEMENT OF PHILOSOPHY

The Muncy School District believes that a dynamic program of student athletics is vital to the educational development of the student.

The Muncy Junior-Senior High School Athletic Program provides a variety of experiences to aid in the development of good habits and attitudes in students that will prepare them for adult life in a democratic society. The major objective of the Athletic Program is to provide wholesome opportunities for students to develop favorable habits and attitudes of social and group living.

**The Interscholastic Athletic Program will be conducted in accordance with existing Muncy School District as well as PIAA policies, rules and regulations.** While our school district takes great pride in winning, it does not condone “winning at any cost” and discourages any and all pressures, which might tend to neglect good sportsmanship and good student development. At all times, the Athletic Program should be conducted in a manner justifying it as an educational activity.

The Athletic Program will be available to all students who demonstrate an interest in participation, regardless of their individual abilities. Accordingly, appropriate skill levels should be established within athletics, when feasible, so that students may participate as fully as possible regardless of their ability levels.

Coaches should teach the specific skills necessary for improvement in athletics, citizenship, and sportsmanship and provide guidance in the development of good sportsmanship, cooperation, leadership, ethical behavior, citizenship, teamwork and dedication.

The ultimate goals of the Athletic Program should be to enable athletes to realize the value of participation without overemphasizing the importance of winning and to develop and improve positive citizenship traits among the program’s participants.

The Principal in conjunction with the Athletic Director is responsible for supervision of the Interscholastic Athletic Program in which his/her school participates.

#### IV. Parent-Coach Communication Guidelines

Both parenting and coaching are extremely difficult vocations. By establishing an understanding of each position, we are better able to accept the actions of the other and provide greater benefits to children. As parents, when your children become involved in our program, you have right and a responsibility to understand what expectations are placed on your child. This begins with clear communication from the coach of your child's program.

A. Communications you should expect from your child's coach:

- The philosophy of the coach
- Expectations the coach has for your child, all the players on the team, and the team as a whole
- Location and times of practices and contests
- Teams requirements, including practice, equipment, out of season opportunities or conditioning programs
- Actions that could lead to discipline which may result in the denial of your child's participation

B. Communications coaches expect from parents:

- Concerns expressed directly to the coach
- Notification of any schedule conflicts well in advance of the occurrence

As your children become involved in the interscholastic athletic programs of the Muncy School District, they will experience some very rewarding moments. It is important to understand that there also may be times when things do not go the way you or your child wish. At these times discussion with the coach is encouraged.

C. Appropriate parental concerns to discuss with the coach:

- The treatment of your child
- Ways to help your child improve
- Concerns about your child's behavior

It is difficult to accept that your child may not be playing as much as you hope. Coaches are professionals and they make their decisions based on what they believe to be best for each student involved, as well as the team and the program. As you can see from the list above there are certain things that can be discussed with the coach. Other things, such as the amount of playing time, coaching strategies, and concerns about other students should be left to the discretion of the coach.

Situations may arise that require a conference between the coach and the parent. It is important that both parties involved have a clear understanding of the other's position. When these conferences become necessary, the following procedures should be followed to help promote a resolution to the issue or concern.

D. Procedure you should follow when discussing a concern with a coach:

- Encourage your child to speak directly to the coach. Many times the matter can be resolved through this discussion.
- Call the coach to schedule an appointment.
- If the coach cannot be reached, call the athletic director's office. We will assist you in arranging a meeting with the coach.
- Please do not present your concerns to the coach immediately before, during or after a contest or practice. These can be emotional times for all parties involved.
- If the meeting with the coach does not provide a satisfactory resolution, call and set up an appointment with the athletic director to further discuss your concern.

E. Coaches expectations of each parent/guardian

- Support and encourage your child to be the best student-athlete that they can be.
- Work to promote a positive environment that is conducive to the development of your child.
- Become familiar with, and review the rules and regulations with the student-athlete.
- Communicate any concern in a timely manner.
- Treat all coaching personnel with courtesy and respect and insist that your child do the same.
- If a student-athlete is injured during an event or practice which requires hospitalization, it is the parent's responsibility to fill out the necessary insurance paperwork. The school carries a secondary excess policy for injuries.

There is significant research which indicates involvement in extra-curricular activities increases the chances of being a successful adult. The Muncy School District offers a wide variety of these extra-curricular activities. Many of the character traits required to be a successful participant are exactly those that will promote a successful life after high school.
